

# PDSA RAMP PLANNING TEMPLATE

**BEFORE YOU START:** What are you trying to accomplish with this change idea? What does implementation look like?

## CHANGE IDEA:

	<b>PHASE 1</b>  <b>Develop &amp; Adapt a Change</b> <i>Learning about what it takes to get it to work in my context</i>	<b>PHASE 2</b>  <b>Multiple Contexts</b> <i>Learning about how the change performs with more people in more places, and iterating in response</i>	<b>PHASE 3</b>  <b>Wrap Arouns</b> <i>Learning about other processes and supports needed for the change to work effectively and lead to improvement consistently</i>	<b>PHASE 4</b>  <b>Implementation</b> <i>Learning about what system conditions will support integrating this change as a regular part of how we do work</i>
<b>High Level Strategy for Learning</b>  <i>(What do you need to learn about the change idea?)</i>				
<b>Testers</b>  <i>(Who do you need to involve in testing in this phase?)</i>				
<b>Data</b>  <i>(What data could you collect to help answer your learning questions?)</i>
